

July 24 1945

Mr Ray Kennedy
Ruppert Stadium
Newark N.J.

Dear Mr Kennedy:

It has been suggested to me, that The Eagles may be able to play in Newark Labor Day night, if The Bears are playing a doubleheader that day. It has been done in Washington. I am not sold on the idea but I decided to write you, and see if you would even consider the idea. I will appreciate you letting me know as soon as possible, so I can decide what to do.

Now I am asking you again to order me some bats. I have found out this is the way all the teams are getting them. Each park we play in has been kind enough to get the bats for the team. In fact if it was not for this arrangement, I do not know what we would be doing. It is too bad we did not have the same arrangement for bats that we have for balls, but this is due to the fact we did not get bats any special place before. We just bought bats any place we saw any we wanted. Just another one of our poor business policies. I wonder if you could get Jersey City to help us out on this particular problem. In the order will you please get 4- 36s.

You can see by the enclosed schedule, we have arranged quite a few games for home for August. I have decided the fans seem to enjoy the western league teams. I wish our baseball would play an interleague schedule like the football does. Are the Major Leagues still thinking of taking us over. I wish they would. If you know of anyone who is interested, I wish you would let me know, so I could try and have a talk with him. I will be looking to hear from you about the labor day.

Very Truly Yours
